

# Senior Credit Risk Analyst

<b>Remuneration:</b>	R500000 - R700000 per month cost-to-company
<b>Location:</b>	Cape Town
<b>Job level:</b>	Mid/Senior
<b>Type:</b>	Permanent
<b>Company:</b>	Ad Talent Africa

## Who are we:

A leading retail business.

## Who are we looking for:

We are looking for a competent and driven Senior Risk Analyst who will be exposed to all aspects of the credit lifecycle: acquisition, marketing, account management and collections.

## What will you do:

- Primary tasks include :
  - Establishing optimal credit risk policies and limit calculations
  - Analyse current strategies
  - Building A/B testing strategies
  - Defining rules to manage exposure based on customer performance
  - Assist the project manager, business analyst, system development and IT teams to design solutions that sets the business up for future success
  - Engage in a consultative role with the Marketing and Collections operational teams to streamline their mandates
  - Produce monitoring reports
- Other:
  - Mentoring and up-skilling of junior analysts
  - Ensure the business is compliant with regulations and external data providers i.e. credit bureaus

## What do you need:

- Five years' experience
- Degree with Mathematics/Statistics or equivalent (essential/advantageous)
- Advanced computer literacy skills with a high proficiency in SQL or SAS and Microsoft Excel
- Experience in all areas of the credit lifecycle
- Proven experience with scorecards and analytics
- Knowledge on how credit risk scorecards are built and experience in assigning risk strategies on risk groups

derived by scorecards

- Present data to demonstrate conclusions gained from analysing data
- Able to query and interpret data quickly and clearly
- Self-motivated driver of performance
- Great at finishing projects and disciplined in meeting deadlines
- Strong problem-assessment and decision-making ability
- Attention to detail with a methodical approach to work
- Able to regroup and re-organise when priorities shift
- Generate ad-hoc reports and analytics
- Ensure professional relationships are established and maintained with colleagues, customers and external vendors
- Comfortable working in a team to assist on other key projects in the Customer Management Services team

**Skills required:**

- Balanced scorecard
- Credit risk
- Data analysis
