As the temperature gradually drops and that tangible chill in the morning air prompts us to plead for ‘just five more minutes’ under the covers; we are reminded that winter is at our heels and it’s time to break out our warm jackets, fleece-lined boots and electric blankets.

But did you know that preparing for winter goes beyond priming our homes and bodies? More often than not, the one key element in our daily routine that often gets overlooked are our vehicles! A recent study cited the average South African as spending approximately 36 hours in peak hour congestion, annually. Now, can you imagine what that does to the lifespan of our automotive batteries?

Award-winning vehicle fitment centre Tiger Wheel & Tyre is here to urge motorists about the importance of good battery health and always being prepared for the unexpected.

Farishta Singh – marketing executive at Tiger Wheel & Tyre – “At Tiger Wheel & Tyre, we believe that year-round automotive battery maintenance is vital, however, in our climate, our batteries often take a significant hit during the colder months – making it critical for us to always be prepared and not be left out in the cold, stranded with a dead battery.”

Continuing: “During the month of May, to ensure our customers are always ready to hit the road safely, we’re excited to give away five Jump 12 multi-functional vehicle jump starters daily, each worth R1,299.”

To qualify, simply purchase any automotive battery or two premium brand tyres on or before 5 June 2021, to automatically enter into the draw.
