Shahar Bar-Or joins Infinidat

Storage solutions provider, Infinidat, has appointed Shahar Bar-Or as its new chief product officer and general manager of its Israeli operations. Bar-Or will be tasked with overseeing the company's R&D, quality assurance/validation, product innovations as well as operations and IT.

He joins the company from Western Digital where he was VP of embedded engineering and Israel site leader and prior to that, he was at SanDisk for nearly nine years. He will report to the chairman of the company's board, Boaz Chalamish.
