

Sitefinity appoints new partner Khanyisa Real

Khanyisa Real Systems (KRS) has been appointed as a progress partner at Sitefinity.

The partnership agreement will see KRS offer development and support services to corporates, large-scale business operations and digital marketing agencies across sub-Saharan Africa.

The partnership came to fruition after KRS had approached Sitefinity's product owner with an offer to partake in the potential the ASP.NET Web CMS has for enterprises in South Africa.
